### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Dave Christensen on 1/4/2008.

The application has been amended as follows:

#### In the Claims

##### Claim 1:

In line 7: Replace "a third layer disposed between" with "a third layer disposed between, in direct contact with,".

##### Claim 13:

In line 12: Replace "a third layer disposed between" with "a third layer disposed between, in direct contact with,".

##### Claim 20:

In line 11: After "the third layer being disposed between", add "and in direct contact with".

Claim 26:

In line 5: After "a third layer disposed between", add "and in direct contact with".

Claim 27:

Please cancel claim 27.

Claim 28:

Please cancel claim 28.

**Reasons for amendment:**

Claims 27 and 28 are canceled because although Applicant relied on par. 21 for support, par. 21 does not disclose that the pressure exceeding 500 pounds per square in is withstood by the first bond line and second bond line as claimed in claims 1 and 13.

**Reasons for allowance:**

The closest prior art is Spear (US 6051331). Spear discloses a bipolar plate comprising a first layer (30-2), a second layer (30-6), and a third layer (30-4) having channels as recited in claims 1, 13, 20, and 26. Refer to fig. 4 of Spear. However, the layers are not in direct contact with each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
